Ms. Doherty made a Motion to award Contract Option #1 for the Church Avenue Renovation to Charlestown Paving in the amount of \$34,600. Seconded by Mr. Dalton.

On the Question:

Mr. Ewald stated that Council has been working on this for three years and this is the bid we received for the project. He has received correspondence from the residents of Church Avenue and they continue to be concerned about the safety of Church Avenue in the winter.

Mr. Kovaleski stated the intent is not to get rid of the Belgian Block but to reuse them in a future project in the Borough.

Mr. Kirkner asked for clarification that we did only receive one bid and that he believed the project would fall under prevailing wage.

Mr. Kovaleski confirmed only one bid and deferred to Mr. Garner on the need for Prevailing Wage.

Mr. Garner explained the thresholds for Prevailing Wage and stated that this project may not have needed a Prevailing Wage determination.

Mr. Kirkner asked if Staff was surprised we only received one bid.

Mr. Krack stated we expected more bids as other potential bidders had submitted questions about the project.

Mr. Soto asked for clarification on Staff's recommendation for using the blocks as gateway accents for an upcoming Streetscapes project.

Mr. Krack stated that staff had looked for a way to turn them over to the private sector for reuse, but as Council continued to discuss the blocks it became apparent that reusing them on a Borough project would be more favorable. Staff looked for an opportunity to reuse them and by setting them in the intersections of Gay and Church or Main and Church so they would remain in the heart of the downtown. We do have a Streetscapes project item later tonight on the Agenda and if Council chooses to move forward, the Belgian Blocks would be stored until such time.

Ms. Doherty stated her frustration in making the decision has been that this is the last street in the Borough with the Belgian Blocks. It's not really a highly traveled street and the residents adjacent to Church Avenue no longer want to deal with the blocks during inclement weather. She stated she understands that a previous Council moved the blocks to Church Avenue and had they been left on a flat street we would not be dealing with the issues of the blocks.

Mr. Kirkner asked if the Borough looked for funding to restore the Belgian Blocks.

Mr. Krack said a grant was not sought. We have from the start tried to deal with the safety on the street.

Mr. Kirkner asked how the grade of the street effected the decisions.

Mr. Krack stated that PennDOT typically would not fund a project with this steep of a grade. The restoration of the Belgian Block would not be covered by Liquid Fuels funds, however the paving of it can be paid for with those funds and not from the General Fund.

Mr. Soto stated he has vacillated between keeping the street as it is versus paving. Right now he feels that the street is not as charming when you have to walk or drive on the street. He had received the most correspondence from the residents asking that the blocks be removed and frankly he agrees with Ms. Doherty that the blocks will be more visible and charming in the Streetscapes project.

Mr. Kovaleski stated he agrees this has been a difficult but now is the time to take action.
